**Allowable Subject Matter**

4. Claims **1, 6, 15-16 and 24-25** are allowed.
5. The following is an examiner's statement of reasons for allowance:

The arts of record used as the basis for the previous rejection, Solomon(US Patent 6269409) and Record et al (U.S Patent 5625821) do not expressly teach or render obvious the invention as recited in independent **claims 1, 15 and 24**.

a. As to **claim 24**, the art of record does not expressly teach updating said first data value in response to said receiving a request to unblock step; and transmitting a signal indicative of said occurrence of said event to said signal handler in response to said receiving a request to unblock step and based on said second data value when taken in the context of the claim, as a whole. Moreover, the art of record does not provide a basis of evidence for asserting a motivation driven from the art or from one knowledgeable in the art, that one of ordinary skill in the art at the time the invention was made would have modified a method for selectively blocking and unblocking event signals associated with operating systems to combine the disclosed limitations as recited in the context of **Claim 24**.

b. As to **Claim 1**, being directed to a method claim having substantially the same limitations as **Claim 24**, this claim is allowable for the same reasoning as recited in **Claims 24** above.

c. As to **Claim 15**, being directed to a method claim having substantially the same limitations as **Claim 24**, this claim is allowable for the same reasoning as recited in **Claims 24** above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
